

# Draw My Pet

How would you like to create a miniature version of your furry friends? What about designing your ideal pet?

In this course, we will look at how to sculpt a simple animal using the free modelling software Sculptris.

Students will bring home a 3D print of their design.

- ① Basic Brushes in Sculptris
- ② Sculpting Techniques
- ③ Preparing for 3D Printing

**Course Fee: \$120**

**Course Duration: 2.5 hours**

### Our Venues:

Prototyping Lab @ NDC, 111 Middle Road, S(188969)  
XPC @ Home-Fix, #05-12, 19 Tai Seng Avenue, S(534054)  
Simplifi3d HQ, 20 Peck Seah Street #03-00, S(079312)
