3D Sculpting – Level 1 (Beginner)

Students will be taught to use the free 3D sculpting program, Sculptiris. The fundamentals of free form 3D modelling will be covered, and students will make a basic 3D model. Concepts behind designing for 3D printing will also be covered.

3D sculpting is a good complementary skill to 3D modelling, and is more suited for people looking to create character models.

**Classes will be restricted to a maximum of 5 participants.*

Workshop Outline:

Create 3D Models:

Design and make your own object using Sculptiris.

* Students need to bring their own laptop for the course. Download the free software- Sculptiris .
